Professional Summary

BCA graduate with hands-on experience in developing full-stack web applications using the MERN stack. Proficient in React.js, JavaScript, Node.js, Express.js, REST API development, MySQL, JWT authentication, and Git. Strong understanding of frontend-backend integration, database management, and responsive web development. Passionate about building scalable, user-friendly applications and eager to contribute as a Full Stack Software Developer.

Technical Skills

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3.

Backend: Node.js, Express.js, REST APIs, JWT Authentication.

Database: MySQL, MongoDB (Basic).

Tools & Platforms: Git, GitHub, VS Code, Postman, npm.

Projects

MedEase – Full Stack Healthcare & Pharmacy Management System

Technologies: React.js, Node.js, Express.js, MySQL, JWT Authentication, REST APIs, Git

- Developed a full-stack healthcare and pharmacy management system using React.js, Node.js, Express.js, and MySQL.
- Built secure JWT-based authentication with role-based access and developed RESTful APIs.
- Implemented medicine management, shopping cart, appointment booking, order management, and prescription management features.
- Created responsive React components and an admin dashboard with complete CRUD operations.
- Integrated MySQL for efficient data management and application functionality.

Education

Bachelor of Computer Applications (BCA)

Specialization: Software Development and Web Development

Srinivas University

Graduated: 2026

Soft Skills

Problem Solving • Communication Skills • Team Collaboration • Quick Learner
Adaptability • Time Management • Attention to Detail • Analytical Thinking
